Environment

- Pressroom is temperature and humidity controlled.
- All presses use reverse osmosis water purification and digitally controlled wetting agents for PH and conductivity consistency.
- Our presses run soy-based ink to aid in our recycling effort.

Quality Controls

- Our latest press has scanning densitometry.
- All presses run to the GRACoL G7 Standard.
- ROOM (RIP once output many) workflow assures consistency from proof to plate.
- ORIS color management software provides iterative calibration of digital proofs.
- ISO 9001:2008 Certified by NQA
